REASERCH PROJECTS

- **Currently we are doing a project for collaborative study entitled “An open labeled clinical pilot study on safety and activity of Holistic extract of Haridra, 600mg extract capsule, orally twice a day for 10 weeks, for treatment of Low Grade Squamous Intraepithelial Lesions of Cervix (LGSIL) in Pap smears in women”.**
- **This is joint collaboration with K.H.S.M.R.C.**

- The project has been approved by the Independent Ethics committee.
- For this study we got a COLPOSCOPE from Pharmanza Herbals.
- And as mentioned earlier had hands on training workshop on “Cytology & Colposcopy in prevention of cervical cancer”
- We have presented Research Project under MUHS Research fellowship for teachers to Nashik University for the approval and the grant.
- Title of the Research Project

Effect of Oral Haridra (for 12 weeks) & Local Haridra+ Nimbaextracts (for 10days) in women with persistent low grade intraepithelial cervical neoplasia (precancer) in Papanicolaou (Pap) smears.
