

**PHARMACY VISIT OCTOBER 29, 2024**  
**APM'S AYURVED MAHAVIDYALAYA, SION, MUMBAI-22.**

To  
The Principal,  
APM'S Ayurved Mahavidyalaya,  
Sion, Mumbai.

**Subject:** Report of Shaileya Rasashala pharmacy visit on October 29, 2024

**Respected sir,**

On 29<sup>th</sup> October 2024 we visited Shaileya Rasashala, Dombivali for a one day pharmacy visit as per PG Syllabus of Rasashastra and Bhaishajya Kalpana.  
A total of 5 students visited Dootpapeshwar Pharmacy.

**List of students were present for the visit**

- 1) Vd. Pranjan Ahire.
- 2) Vd. Shivani Kelbaikar.
- 3) Vd Shivani Patwardhan.
- 4) Vd. Srushti Raut
- 5) Vd. Rohini Vekhande

Shaileya Rasashala is situated in Dombivali, Maharashtra, India. It is a GMP certified pharmacy. They produce a wide variety of Bhasmas and Rasayana like Kupipakva, Pishti, etc. The in house Bhatti section for Puta required for Bhasma manufacturing, is located indoors in the pharmacy. It is the first pharmacy with indoor Puta section in the city, as informed by director, Dr. Chinmay Phondekar Sir, who gave us a tour of the pharmacy and explained regarding it.  
Following points were taken into consideration in each department:

- **Raw Material Storage Section:**

Raw Storage section guided. Raw Materials includes- Herbal raw Materials, Metals, Minerals  
Raw Materials, finished raw product.

- **Packing Material Storage section:**

Packing materials includes – Containers, labels, boxes of different size, etc.

- **Disintegration section :**

The raw materials were disintegrated into coarse and fine powder for further production.

- **Rasadravya Shodhan Section**

Shodhan of rasadravya with their respective shodhan dravya as per classical reference are done.

- **Bhasma Bhavana and Pishti Section**

It consists of a number of Khalva Yantra of various shapes and sizes where Bhavana are done manually by pharmacy workers.

- **Bhatti Unit**

The in house Bhatti section for Puta required for Bhasma manufacturing, is located indoors in the pharmacy. Depending on Bhasma to be prepared Gowari size is varied in the Puta. Various Bhasma like Abhraka Bhasma, Mandur Bhasma, etc. are prepared.

- **Kupipakwa Unit:**

Kupipakwa rasa were prepared in this section. Eg. Rasasindoor  
They have a specially manufactured Kupipakwa Unit that has been designed to run on heat due to coal and use indoor

- **Quality Control**

Analysis of Raw Material, Packing Material, In Process & Finished Product Analysis, etc is outsourced to reliable laboratories.

- **Finished Goods Stores- Dispatch**

Finished Goods were stored and dispatched as per stock availability and further to the market.

Our PG students got a great exposure regarding Ayurveda, production of various Bhasma, Kupipakwa rasayana, etc.

**Vd. Asore G.R.**
